

UniversityFunda.com — Tiny AI Chatbot

100% FREE TIER ENABLED

Capacity, Throughput & Cost Architecture Report | Course & University
Suggestion Engine by tinkal.in

1. Executive Summary & Free Tier Quotas

The **University Funda Website Chatbot** is powered by **Tiny AI**, an intelligent course and university suggestion engine engineered by **tinkal.in** for **universityfunda.com**. Using ultra-low latency inference (~288ms response times) on specialized Language Processing Units (LPUs), Tiny AI guides prospective students toward ideal universities and academic courses with a generous daily developer free quota that requires no upfront payment or credit card.

DAILY STUDENT QUERY CAPACITY (FREE) 800 - 1,000 Student counseling replies per day	DAILY STUDENT CHAT SESSIONS 200 - 250 Unique students chatting daily (Avg 4 msgs)	MONTHLY FREE SUGGESTION REPLIES 25,000+ ₹0.00 infrastructure AI cost
---	--	---

2. Exact Capacity Breakdown (Daily vs. Monthly)

Metric / Workload Type	Per Message Avg	Daily Limit (Free Tier)	Monthly Capacity (Free)	Status
Token Utilization	~600 Tokens (In + Out)	500,000 Tokens / day	~15,000,000 Tokens / mo	100% FREE
API Request Limit	1 Request / reply	14,400 Requests / day	~432,000 Requests / mo	100% FREE
Student Course & Univ Suggestions	1 Tiny AI Reply	800 – 1,000 Replies/day	25,000 – 30,000 / mo	ACTIVE CAPACITY
Unique Student Counseling Chats	4 Messages / session	200 – 250 Students/day	6,000 – 7,500 / mo	ACTIVE CAPACITY
Peak Speed / Throughput	~288 Milliseconds	30 Requests / minute	Instant Auto-scaling	HIGH SPEED

3. Scale-Up & Exceeding Free Quota (Cost Modeling)

If student inquiry traffic on **universityfunda.com** grows beyond **30,000 suggestion replies per month**, you can either switch API keys instantly via the admin portal or upgrade to Pay-As-You-Go. Tiny AI token pricing is among the most cost-effective in the education industry:

Monthly Growth Tier	Total Monthly Messages	Total Tokens Used	Estimated Monthly Cost (USD)	Estimated Monthly Cost (INR)
Tier 1 (Current Free)	Up to 25,000 messages	15 Million Tokens	\$0.00	₹0 INR (FREE)
Tier 2 (High Growth)	50,000 messages	30 Million Tokens	~\$31.05 USD	~₹2,580 INR / mo
Tier 3 (Enterprise)	100,000 messages	60 Million Tokens	~\$62.10 USD	~₹5,160 INR / mo

4. 3-Model High-Availability Fallback Chain

To guarantee zero downtime during peak university admission seasons and traffic spikes, the chatbot webhook enforces an automated fallback sequence:

Priority Order	Model Identifier	Avg Response Time	Role & Behavior
1. Primary Engine	tiny-ai-course-advisor-70b	~288 ms	Highest intelligence, tailored course & university recommendations in Hinglish & Hindi
2. Instant Fallback	tiny-ai-instant-8b	~123 ms	Ultra-fast backup if primary 70B engine is busy or rate-limited
3. Compound Backup	tiny-ai-compound-beta	~904 ms	Deep reasoning backup ensuring 99.99% student counseling reliability
